UNIVERSITÀ DELLA CALABRIA

Mahmood completed his graduate studies at the esteemed Quaid-I-Azam University in Islamabad. Building on his academic success, Mahmood secured admission to a highly competitive Ph.D. program in Information and Communication Technologies in December 2021. His doctoral journey began under the Ministerial Decree, as part of the prestigious PON 2014-2020 Research Doctorate on Innovation Topic, thus affirming his commitment to cutting-edge research and technological advancement. Following his pursuit of academic excellence, Mahmood enriched his educational experience by spending a transformative six months at the National Institute for Research in Digital Science and Technology (INRIA) France, a globally renowned research institution and a pioneering force in the realm of computer science, consistently ranked at the illustrious 5th position worldwide. This international exposure not only broadened Mahmood's horizons but also provided him with a unique opportunity to collaborate with leading experts in the field.
