### GET IN TOUCH

I am open to networking, and discussing opportunities related to my field of expertise. Please feel free to reach out to me through email.

### PROFESSIONAL DETAILS

I am proud to be a part of 'Istituto per il rilevamento elettromagnetico dell'ambiente (IREA) - CNR, Italy,' a well-reputed research institute specializing in Microwave Remote Sensing. With expertise in Differential Interferometric Synthetic Aperture RADAR (DInSAR), I am actively engaged in various projects in collaboration with the Italian Space Agency (ASI) and the European Space Agency (ESA).

### EDUCATION

- **PhD in Information and Communication Technology and Engineering**

**Università degli Studi di Napoli Parthenope, Italy**

My Ph.D. research focused on the development of algorithms for Multi-Temporal Differential Interferometric Synthetic Aperture RADAR (DInSAR).

- **Master In Electronics**

**Quaid-i-Azam University Islamabad, Pakistan**

My Master research focused on Machine learning and pattern recognition.
